Sydney is a large city but you can go surfing, scuba-diving, bushwalking or just relax on the beach – all within the Sydney metropolitan area. Very importantly, our students always find the people very friendly and welcoming.

The climate is great with hot summers and mild winters so it’s easy to enjoy the outdoors.

Studying abroad is a once in a lifetime opportunity for you to accelerate your learning and progress to the level you want to achieve. It may seem difficult, but it’s our job to make it easy! So how do we do it?

The right level for you
On your first day at ELC you’ll take a placement test and have a spoken interview so we can place you in the class that’s right for you. You’ll then choose your elective classes which are also streamed by level.

Our methodology
You will have many opportunities to communicate throughout the lesson with your teacher and classmates. Your teacher will use a variety of approaches to present and practise language and skills in real-world contexts.

Collaborative learning
Our classrooms and learning spaces have been specifically designed to facilitate communication and comfort and give you variety in your learning day.

Learning and technology
Lessons are all face-to-face but teachers use the latest digital resources to ensure that your lessons are varied, up-to-date and dynamic.

Fast pace, maximum progress
Our classes are intensive but it’s the whole experience that will ensure that your English improves a lot in a short time. Speaking English all day, taking part in our activities around Sydney, socialising with your classmates will all assist your progress. Every Monday you will take a short progress test to revise and assess what you have studied.

Customised courses
We offer a range of major English courses which are complemented by your choice of electives so that you can learn exactly what you need. Choose your core course when you enrol and then the electives once you are at ELC. It’s easy!

Optional activities, clubs and clinics
Our special interest classes, activities and clubs each week are the perfect opportunity to do the things that interest you most and which are the most relevant to you.

Coursebook to keep
On the first day of your new class and if you change course or level, you’ll be given a coursebook to keep. We think that it is important that classes follow a coursebook to give their program structure and for you to use as a reference in the future.

Small classes
We have small classes so that you can get the attention you need. Our maximum class size is 15 students with an average of 13.

Study plans
Longer-term students draw up a plan of study with our senior teachers. We discuss your goals and help you plan your route to achieving them, including which electives and English Extras to choose as well as any external examinations. You’ll also have regular tutorials with your class teacher to discuss your progress and review your study plan.

Certificates and level records
Your ELC certificate is a record of your course and level of English upon completion that you can show to prospective employers or higher education institutes.

For more information visit www.elc.edu.au

Academic pathways

All higher and tertiary education institutions in Australia require international students to meet English requirements, usually by showing an IELTS test score. However, ELC also has agreements with many major universities and colleges who allow our students to enter directly into certificate, diploma, graduate and postgraduate programs without an IELTS test, providing you have successfully completed our Academic English course at the appropriate level. For a full list of our pathway partners please see our website.

“When I first came to Australia I couldn’t understand or speak English. I have made a lot of improvement here at ELC and the Academic English course I am currently doing has really helped me improve my formal English and business vocabulary. I have one year left at university and this course will really help me with my university course as it focuses a lot not just on communication skills but also areas like report writing, essay writing and presentations.”

ELC Academic Semester/Year program:
36 weeks or 48 weeks
Combine your choice of courses (depending on your entry level). Most academic semester students start their studies with General English to make rapid progress in their all-round English. They then move on to specialise in academic, business or exam studies. Semester or academic year students at the right level usually take at least one international English exam in this time.

Personalised Study Plan
During the first week of your course, you’ll meet your academic advisor to plan your course of study. They will help you choose electives, enrol you in exams or recommend what you can do outside of class to improve your English. Every 12 weeks (or see them sooner if you want) you’ll meet your advisor to readjust your plan and make sure that you are on target to achieve your goals.

Student Experience Support
Our dedicated Student Experience Coordinator meets all academic semester/year students individually to find out what you are interested in seeing, doing and achieving in Australia. We’ll help you to join a local sports club, find a conversation buddy, volunteer your time or do whatever it is that you’d love to do.

Student ambassadors
Our academic semester/year students have the chance to become ELC student ambassadors. This means that they orientate and support new students, have the chance to participate in some paid activities for free and represent the school to visitors. This a great chance to refine your communication skills, enhance your resume for employment and get an Ambassador Certificate from ELC. It’s also a fun thing to take part in!

“When looking for a place to study English in Australia, I was recommended ELC as one of the best schools in Sydney and I’m sure it was the best choice to make.

The location is very convenient and even from the first day, the staff were always very helpful, supporting us with handy information and a very efficient service. The facilities are very comfortable for studying and relaxing, and all the classrooms have the technology and the space needed. I also love the social and cultural activities, in which teachers and students can share and learn together in a fun way.

You’ll find very qualified teachers who are well aware of your individual needs and help you improve your skills. I was given very detailed feedback on my performance and helpful strategies to work in class and at home. The lessons were demanding and enriching, and all students in the class were given the chance to participate.

I really enjoyed my experience in school these six months and found it very enriching.”
